

## 2011 Accountability

Montgomery Independent School District wants to thank our parents and community, our teachers, our support staff, and most of all our students, on a successful school year. Educating our children truly takes a village and we are very fortunate to have strong and positive support for our schools from the Montgomery community. Currently we are analyzing our data to determine areas of strength, where student performance meets or exceeds curricular standards, as well as areas of growth, where student performance indicates a more focused review of instructional programs and targets.

Our preliminary student performance data on the spring 2011 Texas Assessment of Knowledge and Skills (TAKS) indicates our campuses and the district meets and exceeds federal and state performance targets.
