LSE Academic All-Star Night

Lone Star Elementary held its annual math and reading night, Academic All-Star Night. The students enjoyed playing math and reading games and received manipulatives to use at home. The book fair was a huge success and the students enjoyed hearing from a local author Stacey Jata, who wrote *My Mom Has Eyes in The Back of Her Head*.

We appreciate the support of Montgomery High School athletes who came and worked with the LSE students. No matter what the age, all had a fun, educational experience.
