The Sweet Life at SCE

Life is a little sweeter for three Stewart Creek Elementary students. During Genius Hour, fourth grade students Kinley, Caitlin, and Kate were given the opportunity to show off their newfound skills by preparing, mixing, and rolling out egg shaped confections to share with their class.

As the girls worked, Candice Brister proudly supervised and said, “They even learned 'Mise en place'. I truly enjoyed my time with them!”

Genius Hour takes place every Friday and allows students to explore their own passions and encourages creativity.
