Denise Miner

Assistant Superintendent of Human Resources

July 2023

Dear Parents and Community Members,

Thank you in advance for your support, patience, and cooperation with our district visitor tracking system implemented at all MISD campuses. The *Raptor 6* software is designed to track all guests to the campus including students, faculty, contractors, parents, volunteers and visitors to the schools, thus providing a safer more monitored environment for the students.

When visitors enter the school, they will be asked to present a valid state issued ID or Texas Driver's License that will be scanned into the system. The system will alert MISD of anyone who may jeopardize the safety of our students.

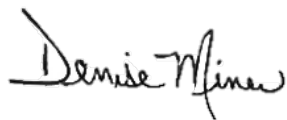

We feel certain this will help keep our campuses safer. We ask for your cooperation in presenting identification when checking in at the school. You will need your ID every time you come into the building. Once you check in, you will receive a name badge which must be worn while you are on the campus. After visiting or volunteering, simply return the badge to the front office.

If you would like additional information about *Raptor 6*, please click on the link below:

www.raptortech.com

Again, thank you for your patience, support and cooperation with our system.

Sincerely,

A handwritten signature in black ink that reads "Denise Miner". The signature is written in a cursive, flowing style.

Denise Miner

Assistant Superintendent of Human Resources
